TOWN'S 2007-2008 PROGRESS REPORT AVAILABLE OCTOBER 29

The Town of Caledon's 2007-2008 Progress Report will be available on Wednesday, October 29, 2008. This annual publication brings together the Town's 2007 financial statements, results from the Municipal Performance Measurement Program (MPMP), and achievements from the Caledon Community Work Plan into one comprehensive document. This year's document highlights four key themes – community safety, recreation, development and environment.

"The Progress Report illustrates how municipal staff and Council work together, and are committed to ensuring the things that are important to the Caledon community come to life," said Mayor Marolyn Morrison. "Council and staff are committed to keeping taxpayers informed about the Town's goals and achievements."

The publication highlights the Town's dedication to delivering effective services, processes and solutions that meet the varied interests of our community. It reflects on past opportunities and challenges, establishes priorities, enhances profiles and it also meets a customer service objective of communicating effectively with the community.

The Town of Caledon's 2007-2008 Progress Report was printed by Warren's Waterless Printing – an award-winning printer recognized for their quality and environmental practices. The Progress Report was designed by Merkley Design – its principal, Chris Merkley, is a resident of Caledon.

Copies will be available at Town Hall, recreation facilities and library branches – a PDF version will also be posted at www.caledon.ca.

A vibrant community of over 57,000 residents and more than 1,700 businesses, the Town of Caledon is the largest and northern-most municipality in the Region of Peel and part of the Greater Toronto Area. Providing effective, high quality municipal services is a priority – maintaining a sustainable balance of initiatives that focus on community, environment and development.
